Summary

Sink trap replacement finished on site 16 Oct 2026. 0 documents listed · 0 attached · 0 to follow (worked out by Vitna). No open snags. Actions: Keep this pack. Turn off the water at the 1/2 inch angle valves (photo 2) and call a plumber.

What was done

Done: The old kitchen siphon was replaced with a new 40 mm PVC bottle trap with a waste connection (Text note 2). An McAlpine STW4-S5 1.5 inch anti-siphon bottle trap was fitted, following manufacturer instructions (Text note 1). The 1/2 inch angle valves for the washing machine and dishwasher were closed (Text note 2). Leakage was checked with a 5-minute overflow test, showing zero drips at the connections (Text note 2). A machine test confirmed a full dishwasher cycle with no backflow to the sink (Text note 2).
